

Cahaba Mountain Brook Animal Clinic Surgical/Anesthetic Consent Form

Pet's name _____

Surgical Procedures:

- Spay/Neuter
- Feline Declaw
- Dewclaw Removal
- Dental Cleaning
- Microchip Implant
- Remove wart/tumor/growth (location) _____
- Other _____

The medical staff at Cahaba Mountain Brook Animal Clinic has made every effort to ensure that your pet has a smooth and safe anesthesia and surgery/procedure.

We use the safest anesthetic protocols and most advanced monitoring of vital systems available for your pet. Because no anesthesia is without some risk, we require pre-anesthetic bloodwork for all patients undergoing anesthesia. It enables our doctors to assess anesthetic risk and/or prescribe intra-operative supportive measures to help ensure the safety of your pet.

For additional safety, we recommend intravenous fluids during the procedure to maintain blood pressure and ensure your pet's post-surgery comfort (strongly recommended in patients over 7 years of age). The fee for this service is \$87.50. Accept Decline

We also offer laser surgery as an option for any surgical procedure. Laser surgery has the advantage of less bleeding, less swelling, less pain, and faster recovery times. The fee for this service ranges from \$66.50 -114.50. Accept Decline

We at CMBAC want to provide your pet optimal care and comfort. Therefore, we offer optional pain packages to use at home following your pet's procedure. Fee - \$22.40.
 Accept Decline

I am the owner, or authorized agent of the animal named above. I understand the risks and possible complications of anesthesia and surgery for my pet and hereby authorize Cahaba Mountain Brook Animal Clinic (doctors and staff) to proceed with the surgery/procedure discussed. I am aware that veterinary service is not provided overnight. If I cannot be immediately contacted at the number below, CMBAC is to make the decision they deem best for my pet.
